SBD II

Single Box Dispenser™ II (SBD II), is the solution to manage mission critical inserts and everyday small tooling in discrete compartments. The SBD II reduces consumption and waste, providing additional control for inventory management.

SBD II DELIVERS

Flexible design

- Supports new and existing SmartDrawer® solutions
- SBD II cartridges support multiple insert package sizes

Quick and Easy Access

- Rapid refill reduces stocking time
- Quick login process, product selection, product retrieval and logout for users
- See-through storage cartridges

High Density

- 128 compartments in a single drawer

FEATURES

- Simple and easy to use pick-to-light technology
- Strategically load inserts to restrict access to specific users, avoiding distribution of incorrect insert sizes
- Integrates standard SmartDrawer™ technology and insert package control in a single system design
